

69 new teachers!

Steve Vinton, February 19, 2008

It was hard for everyone serving in Village Schools Tanzania to not be in an excited mood as we opened our eleventh school on February 11th! Mtinyaki Secondary School was born in the village of Mtambula thanks to the hard work of thousands of people, united in the desire to see the children of that village, and many other villages near it, get the chance to go to school.

Allow me to share with you not only a map (which I've attached) to give you an idea of where all of our schools are located, but allow me also to share with you Godfrey's very timely words: *"Only a fool would see the eleven schools which have been built in three years and think this is because we who serve in Village Schools Tanzania are super people able to do extraordinary work. I do not deny that everyone is working very hard and doing his or her best work. If we opened one school in three years then we maybe could claim we worked hard and did a great job and that was why we succeeded. But eleven schools? No, we must say the truth that it is God Himself who made the decision that He desired these schools to open. And He could have used any people He wanted to do this. But He chose us. So we should rejoice that we are so blessed to be chosen by God to do what we could not do ourselves in our own strength."*

Enjoy the map folks!
