

Details are still sketchy
Steve Vinton, March 16, 2008

Details are still sketchy, but it seems that one of the old men in the village was being helped to the hospital by Festo, the student council president here at our school, when they were hit by a motorcycle. The motorcycle was traveling very, very fast and the old man died right here in the village at the scene of the accident. Fenet has just left here with one the cars to take Festo to the hospital in town two hours away.

We have many concerns right now, including the fact that there was a lot of blood at the scene and quite a number of our students were involved in helping to carry him from the scene of the accident to the village dispensary. They of course did what was the kind thing to do, but the amount of blood that many of them came in contact with is of very serious concern to all of us.

We certainly would appreciate your prayers.

Thanks,
Steve
